#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

IT'S A PROJECT-BASED WORLD. HERE'S A GUIDE TO GETTING STARTED WITH PROJECTS TODAY!

A QUICK START GUIDE FOR STUDENTS

LEARNING IN A PROJECT-BASED WORLD

IDENTIFY YOUR PASSIONS.
A project is more engaging—and leads to more powerful learning—if you find it personally meaningful. Focus your project on a real-world issue or problem that you care about; you will do more powerful work.

KNOW YOURSELF.
A project will be authentic when it speaks to your interests and your culture. Learning more about your family, where you came from and your own beliefs can help you define what you want to learn and do.

BE ON PURPOSE.
Be intentional about what you want to do and accomplish. Write it down. Tell people who can hold you accountable.

CREATE A TIMELINE.
Wonderlic will help you set and then track your project goals and deadlines in a one-stop project management tool. Use this project planner for that one that works well and then build in time to learn it!

INVOLVE ADULTS.
Chances are, there are adults who have an expertise in something you care about. Connect with them. Need help? Ask your teachers, family members or other trusted adults.

UTILIZE TECHNOLOGY.
Apps such as Trello, Basecamp and Asana help you track your goals and timelines. Use what you know how to use and look for tools that might also be used in the business world. This allows you to learn even more new skills and is helpful for the future (thinking ahead to your resume or online profile).

CREATE GOALS.
Set aspirations for your project that are realistic and challenging. Revisit them often to check progress.

"I think the best way for me to learn is hands-on, learning experience and through trial and error. Projects encourage that." Christina Posthumus, graduate of Virginia Hill Public High School, an internet-based and project-based learning school near Seattle
