

Download File PDF The Boeing 737 Technical Guide Colour Version

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

737 NG TRAINING SYLLABUS

STEP 3: Type the **FOUR LETTER ICAO** identifier for the departure airport (YSSY).

It will appear in the **LOWER LEFT** part of the CDU display screen. This part is called the **SCRATCHPAD (SP)** for short. This is an important part of the learning - "most" information that you will be placing into the CDU will first be placed in the scratch pad. That may be confusing at this point, but it will become second nature.

Once the entry is placed in the SP, then you can select one of the little keys along the side of the display, and that will place the information from the SP to that place on the screen. This computer is pretty smart and won't accept inputs that it thinks are inappropriate.

STEP 4: Press the **INDEX** key.

STEP 5: Select the key next to **ROUTE**. This will take up to the next CDU page. In this case, this is entirely appropriate as is what we want to do.
